

EDUCATION REFORM BILLS

A TOP PRIORITY FOR AIF

AIF SUPPORTS HB 7189 to Create Classroom Career Paths for Florida Teachers because:

- It's time to institute a better process that results in better-prepared students. Florida can achieve the greatest impact by changing how Florida evaluates and rewards our teachers.
- Classroom teachers deserve to be rewarded for their efforts that yield academic success for their students.
- Schools need the flexibility to operate like a business — producing the highest caliber students through incentivizing the highest caliber teachers.
- Being evaluated based on the results produced and rewarded for a job well-done with additional compensation are not anomalous methods for determining employment status or pay.

AIF SUPPORTS HB 7039 to “Right Size the Class Size” Because this Important Bill:

- Increases flexibility to implement the class size requirements of the Florida Constitution.
- Does not go backward on class size achievements to date.
- Creates access to more rigorous and specialty courses for Florida students which will yield a more well-rounded workforce for Florida's future.

AIF SUPPORTS HB 7053 to Enhance College & Career Readiness in Florida Schools because:

- Increasing standards for high school graduation will better prepare Florida students for global competition.
- Moving high school students away from the FCAT toward end-of-course exams for specific courses such as Algebra 2, Biology, and Chemistry provides a better basis for evaluating what they have learned.
- Improving students' access and exposure to classes yielding greater transferable skills allows them to graduate from high school prepared for college and work.

VOTE **YES** FOR FLORIDA'S FUTURE
