### **SB 888-Relating to Prescription Drug Price Transparency**

On Monday, May 1st, SB 888, by Senator Aaron Bean (R-Jacksonville) was heard in the Senate Committee on Appropriations and unanimously passed by a vote of 17 yeas to 0 nays. **AIF's Senior Vice President of State and Federal Affairs, Brewster Bevis, stood in support of this bill.**

Currently, law requires MyFloridaRX.com to provide the top 150 most prescribed drugs including their customary prices by pharmacies. This bill would double that number to 300 and codifies monthly reporting to the Agency for Health Care Administration ("AHCA"). The goal of HB 589 is to create more transparency in drug pricing, which in turn will give employers and consumers the ability to make more informed decisions regarding their health care spending. Prescription drug costs continue to rise, and become a larger percentage of the overall health care spend in Florida.

SB 888 will now go to the Senate floor to be considered.

**AIF SUPPORTS transparency in drug pricing as a tool for reducing the cost of health care coverage on Florida's employers and employees.**

**LEGAL & JUDICIAL**

**HB 727 & SB 1398-Relating to Accessibility of Places of Public Accommodation**

On Monday, May 1st, **SB 1398**, by Senator Linda Stewart (R-Orlando) was laid on the table and substituted for **HB 727**, by Representative Tom Leek (R-Daytona Beach). HB 727 was then read for a third time on the Senate floor and passed by a unanimous vote of 37 yeas to 0 nays.

Congress enacted the Americans with Disabilities Act (ADA) in 1990 prohibiting discrimination on the basis of disability in employment, state and local government, public accommodations, commercial facilities, transportation, and telecommunications. One of the goals of the ADA is to guarantee that individuals with disabilities are offered full and equal enjoyment of the goods, services, facilities, privileges, advantages, or accommodations offered by a place of public accommodation.

However, individuals with disabilities may sue places of public accommodation including private businesses for alleged violations of the ADA, a problem that is currently rampant throughout the state.

The bill would:

- Create a license type for ADA experts;
- Require the Department of Business and Professional Regulation (DBPR) to establish licensing requirements and regulation for ADA experts;
- Allow ADA experts to determine if the businesses are compliant with the ADA;
- Allow businesses to hire ADA experts and file ADA expert reports with DBPR;
- Allow businesses to file remediation plans with DBPR if they are not in compliance with the ADA;
- Require DBPR to establish a public website with a registry of remediation plans and certifications of conformity; and
- Require courts to consider remediation plans to determine if a plaintiff filed a claim in good faith and whether the plaintiff is entitled to attorney's fees in lawsuits involving alleged violations of the ADA.

HB 727 will now go on to the desk of the Governor.

**AIF SUPPORTS legislation that makes filing frivolous lawsuits against Florida's businesses more difficult to accomplish.**
